WILDEST DREAMS

I NEVER EXPECTED THIS IS WHERE I'D END UP!

Examples of what our Advisors will talk about...

Maths didn't come naturally to me during school, but I'm glad I persisted as it helps me in my role today

I thought I would be a psychologist, but after conversations with my teachers and career counsellor I began exploring Engineering because of my love of problem-solving.

I studied and got a degree in Environmental Science because of my passion for the environment

When I wasn't sure where to go next, following what I liked and was passionate about helped me find roles I was interested in

After I left school, I wasn't sure what I wanted to do so I decided to join the army. Skills like communication and leadership transferred really well into my current role

ROLLERCOASTER RIDE

WHAT I'VE LEARNT FROM THE UPS & DOWNS

Examples of what our Advisors will talk about...

I was made redundant twice and had to start over again

I graduated slightly after my peers at university because I had to repeat some classes

I had to defer university after my mum passed to focus on family

I've had to navigate being the only woman working on a site full of men

I worked as an apprentice until I was involved in a workplace accident. This led me to pursue WHS as a career

A DAY IN MY LIFE

I LOVE WHAT I DO AND I GET PAID FOR IT TOO!

Examples of what our Advisors will talk about...

My company has great policies that fund portions of the diploma I'm studying for

I work a mix of from home and in the office. I love this because it gives me balance to take my kids to school and pick them up

I start early morning and finish early afternoon, it's great because I can spend the afternoon at the beach or seeing friends

At the moment, we're working on a project for the Olympics. It's been so much fun to have a part in designing for such a big event!

I learn best through doing and thrive in the outdoors, it's why I love working on site
